

WHY CHOOSE

# GCSE Geography?

# What is GCSE Geography?

A subject that explains how our world works – from earthquakes and rainforests to cities and climate change.

## Physical Geography

Natural hazards, ecosystems, UK landscapes

## Human Geography

Urban growth, global economy, resource management

## Geographical Skills

Fieldwork, data analysis, map reading, issue evaluation

# Our Fieldtrips:

The Peak District

The Olympic Park in Stratford

Walton on the Naze

## WHY GEOGRAPHY MATTERS

# Skills in Geography:

### Analytical Thinking

Evaluate evidence, interpret data and make informed decisions

### Spatial Awareness

Understand how place, space and scale shape our world

### Communication

Present complex ideas clearly through maps, graphs and writing

### Sustainability

Tackle real issues: climate change, inequality and resource scarcity

# Famous people with Geography degrees:

Michael Jordan

Prince William

Theresa May
